HOW THE POLL WAS CONDUCTED

This poll was conducted by Mason-Dixon Polling & Strategy, Inc. of Jacksonville, Florida from January 18 through January 23, 2023. A total of 625 registered Kentucky voters were interviewed statewide by telephone

Those interviewed were randomly selected from a phone-matched Kentucky voter registration list that included both land-line and cell phone numbers. Quotas were assigned to reflect voter registration by county.

The margin for error, according to standards customarily used by statisticians, is no more than ± 4 percentage points. This means that there is a 95 percent probability that the "true" figure would fall within that range if all voters were surveyed. The margin for error is higher for any subgroup, such as a gender or party grouping.

QUESTION: Would you support or oppose a proposed Kentucky law that would allow the state to overrule parents’ decisions to obtain certain health care for their transgender teenager, such as certain medications that can regulate the onset of puberty?
